

# “It's Not Too Late to... **Vaccinate!**”

Getting a flu vaccine now can protect you through the Spring!

DEC

JAN

FEB

MAR

## Flu vaccines are recommended for:

- \* Healthy adults 50 years and older
- \* Health care workers
- \* Children and young adults, 6 months to 18 years old
- \* Anyone living with or caring for a child under 5 or an adult over 50

 **Remember — Flu vaccine can still protect you and your family**

For more information on flu and flu vaccine, ask your doctor  
or go to: [www.GetImmunizedCA.org](http://www.GetImmunizedCA.org)
